Dear Sir/

Replying to yours of yesterday, my son, Dr. G. F. Drew, is in France, and working hard; has been there for over 18 months. He has been made Captain, and by his letter received last week was quite well. I may say he is serving under the R.A.M.C. and the War Office in London has treated him splendidly.

Thank you very much for your enquiries.

Yours truly,

*Thomas Drew*
