[This letter is published as the honest expression of the opinion of those members who have signed it. Criticisms of it leap to the iridium tipped point of the fountain pen. The word 'Varsity' is a good word, an approved word, has been our word for many years. But the letter may stir up other members to express their views. An overwhelming number of University men have expressed this desire to insist on the use of 'Varsity—use it and the unnatural abbreviation will die.—The President.]
