UNORTHODOX CURES.

Dr. John K. Adey, of Victoria, addressing the Medical Congress, said the medical profession shuts its eyes to the fact that many unqualified practitioners do get a certain number of results. Mr. C. Williams, of Booker Bay, Woy Woy, New South Wales, writes: I wish to testify to a remarkable cure of my nephew, Leslie Thomas, of that terrible disease, Epilepsy. Three and a half years ago he commenced taking fits, after three and a half years treatment at the hands of the best doctors in Sydney (he was in hospital four times) they pronounced him incurable. I brought him to Cairns, hoping the change might do him some good. As he was getting worse, I took him to the Trail Health Institute, and in four weeks he was absolutely cured. At first he was taking 22 fits in 24 hours, in fourteen days Mr. Trail had him free and he has remained so ever since. I am leaving Cairns by the Kanimbla on Monday, the 27th, and anyone interested can see the lad at 72 Abbott-street. I will also be only too pleased to recount to them accounts of some of the remarkable cures performed while I have been in your city. I watched the progress of many of them, among them being four prominent citizens of Sydney. One lady, a prominent citizen of Sydney, whom he has cured, told me that she went to London to a specialist and then to a specialist in New York. They both said nothing could be done for her, yet this unorthodox practitioner, right here in your midst, has cured her. He certainly saved the life of the lad. I am not a really religious man, but I am sure that Mr. Trail was indeed a gift from God to suffering humanity. His consulting rooms are crowded with people who come from all parts of the Commonwealth. I shall be ever grateful to him and shall never fail to recommend him to all sufferers. May it long be granted him to work for the good of his fellow men. If anyone cares to write to me, Box 54, Woy Woy, New South Wales, I will be only too happy to reply.
