

DRYBURGH HOUSE,
ST PETERS.

March 23. 1908

The Registrar
University of Adelaide

Dear Sir

It is my wish to proceed to the degree of Bachelor of Science in the University of Adelaide and I desire to know what status I would have.

In accordance with Regulation XXII paragraph 5 (1900 Calendar) of the University of Melbourne, (quoted below) I attended lectures and passed in Chemistry Part I with Laboratory Work and in Biology Part I with Laboratory Work in the year 1905 with a view to

attaining the degree of Bachelor
of Science in that University.
During my Arts Course I ~~for~~
regularly attended lectures and
passed in Pure Mathematics
(1st year) and Natural Philosophy
(1st year) with honours. ~~and~~ I
also attended lectures in
Upper Mathematics (2nd year) for a
year and Natural Philosophy
(honours course) 2nd year, for one
term but - did not take the
examination as I already had
sufficient subjects for my year -
viz - Greek (Honours), Latin (honours)
Inductive Logic + Geology

I hereby apply for permission
to avail myself of Regulations IX
+ X of the degree of Bachelor of
Science in the University of
Adelaide (Calendar 1907 p. 98) and
request that the work I have
already done and the examinations
I have passed in Mathematics,
Physics, Chemistry and Biology
may be counted pro tanto for
the degree of Bachelor of Science
of this University.

I am
Yours faithfully
J. Murray Coghill
{ M.A. (Melb. + Adel.)

Regulation XXII s. B. Sc. (Melb. Univ.)
" 5. Bachelors of Arts may be
admitted to the Degree of Bachelor
of Science provided they have at
any University Examination passed
in the Subjects of the First Year and
[further

further in the subjects prescribed
in any one group for the second
Year and in those of the same
group for the Third Year for
the Degree of Bachelor of Science."
